

Go/No™ Food Finder App for Medical Practices

The Go/No Food Finder takes the tedious task of reading product labels and replaces it with a simple speedy scan of product barcodes, resulting in recommendations for foods clinically proven good for your members and can generate over \$25,000 annually with as few as 100 new patients per month.

PRACTICE BENEFITS

- Significant incremental bottom-line revenues
- Daily top-of-mind brand awareness
- Improved patient health outcomes
- Increased patient retention
- Saves physicians time

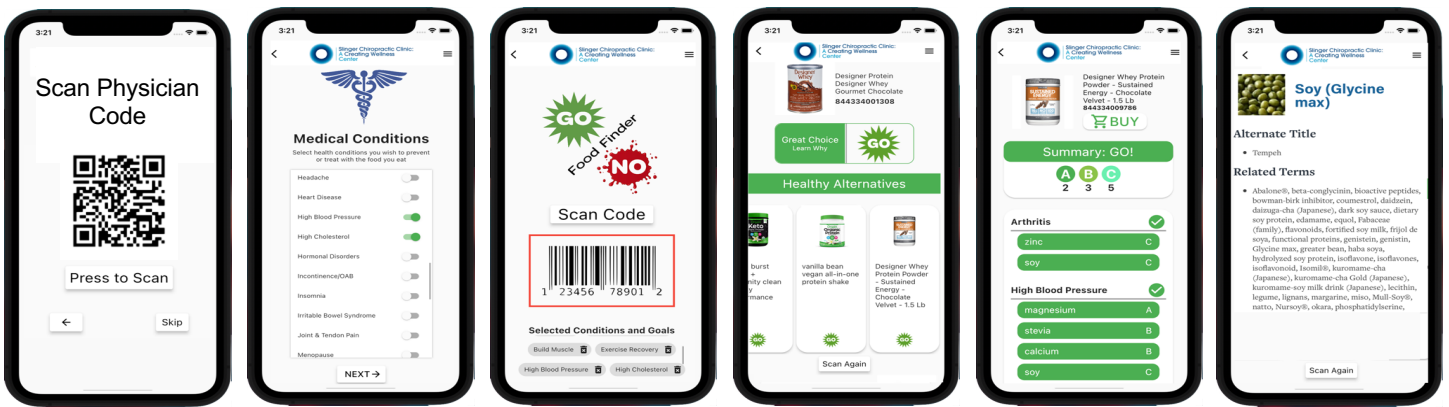

WHY CONSUMERS WANT IT

Simplicity. Clarity. Health improvement. Cash rewards. 52% of grocery shoppers read labels to assess food health with low comprehension. The App simplifies the poor practice of label reading with the precision practice of label scanning, deliver exacting clinically proven results and outcomes, and motivates individuals through financial rewards.
